

REASONS FOR ALLOWANCE

1. Claims 1-20, 22, 24, 26-29, 32 and 33 are allowed. The following is a statement of the examiner's reasons for allowance. Regarding claims 1, 2, 5 and 22, the prior art fails to disclose a transparent intermediate layer comprising at least one of a metal oxide other than a nickel oxide and a metal as a main component placed between the oxidative coloration layer and the solid electrolyte layer. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

2. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
